展會介紹 Introduction to Exhibition

CABT is an exhibition platform dedicated to advanced construction technology solutions. The exhibition focuses on the prefabricated constructions, green constructions, construction industrialization, integrated constructions, construction energy conservation, etc., exhibiting the cutting-edge products and top-notch technologies, and construction the interactive platform of full industry chain for advanced construction technology.

The Exhibition will provide the all-round and multi-angle publicity for participants through the combination of exhibition and media, market and brands, and online and offline means. Gathering the real estate developers, construction designers, chief engineers, technical directors, procurement specialists, etc., the Exhibition is an excellent platform of technology demonstration, product promotions, market expansion and brand enhancement.

CABT is 專注于先進建築技術解決方案的會展平臺，展會聚焦裝配式建築、綠色建築、建築工業化、集成建築、建築節能等，展示前沿產品和尖端技術，構建先進建築技術的全產業鏈互動平臺。

展會將通過展會與媒體、市場與品牌、線上與線下相結合的方式，為參展企業提供全方位、多角度的組合宣傳模式，匯集地產開發商、建築設計師、總工、技術總監、採購負責人等，是展示技術、推廣產品、拓展市場、提升品牌、聚攏人脈的絕佳平臺。

► 廣東建築業

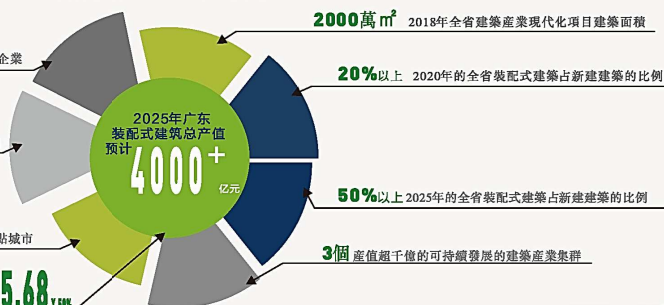

廣東省政府正在出臺《建築產業現代化發展綱要》，明確提出：

15-20家大型預制構件生產骨幹企業

5-10個省級建築產業現代化基地

3-5個省級建築產業現代化綜合試點城市

*2015年廣東建築業總產值 **8865.68** 億元

In Guangdong, the Gross Output Value of Prefabricated constructions expected to reach more than RMB4000 billion by 2025.

市場背景 Market Background

China is energetically advancing the prefabricated constructions

The Chinese Government clearly points out in the New Urbanization Planning during the "13th Five-Year Plan" Period, Green construction Action Plan, Guiding Opinions on Energetically Developing the Prefabricated constructions and other documents that we should vigorously promote the prefabricated constructions and strive to lift the proportion of prefabricated constructions to the newly-built constructions up to 30% in 10 years or so.

The market space of China's industrialized construction is huge

The level of construction industrialization of developed countries reaches as high as over 70%, while China only reaches 3%-5%, a great gap in this regard. Currently, China is vigorously advancing the prefabricated constructions and green constructions, and construction the beautiful China. Under this background, the upstream and downstream of the construction industry will form new industry chain. This means a great market space of China's construction industrialization.

中國大力推行裝配式建築

中國政府在《十三五新型城鎮化規劃》、《綠色建築行動方案》、《關於大力發展裝配式建築的指導意見》等文件中明確指出，大力推行裝配式建築，力爭用10年左右時間，使裝配式建築占新建建築的比例達到30%。

中國工業化建築市場空間巨大

發達國家建築工業化程度高達70%以上，而中國僅為3%-5%，差距巨大，在國家大力推行裝配式建築、綠色建築和建設美麗中國的背景下，建築業上下游將形成新的產業鏈，這意味着中國建築工業化市場空間非常龐大。
